INTRODUCING THE NEW FCM MOBILE APP. INVENTORY JUST GOT A LOT EASIER.

Taking regular, accurate inventory counts is crucial to managing food and beverage costs at your restaurant. But, for many operators, inventory counts end up being a source of headaches, wasted time, and inaccurate accounting. How can you hope to stay on top of costs at your restaurants when the inventory process itself can be so painful?

Avero's new Food Cost Management mobile app makes restaurant inventory faster and easier than ever. Designed by restaurant people, for restaurant people, it works seamlessly wherever you count, regardless of internet connectivity. This app will revolutionize the way you think about managing food and beverage costs at your restaurant.

HOW IT HELPS YOU

NO INTERNET NEEDED

Take inventory anywhere, from the walk-in to the freezer, regardless of internet connectivity.

MULTI-USER COUNTING

Divide and conquer your inventory more quickly with simultaneous counting by multiple users.

BACKGROUND AUTO-SAVE

Never lose work with auto-save that syncs with Avero every few seconds.

PRODUCT SEARCH

Just start typing in the search bar to find the product you need to count next.
